

PN: NPC101M2D1UATRF

SOLID ALUMINUM ELECTROLYTIC CAPACITOR

Low ESR (0.005 ohm / 100KHz)

100uF ±20% (M)

2VDC Rating (0.85V - 1.60VDC core voltage applications)

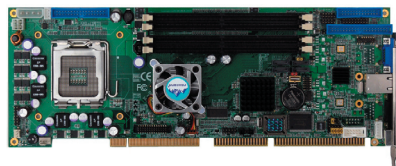

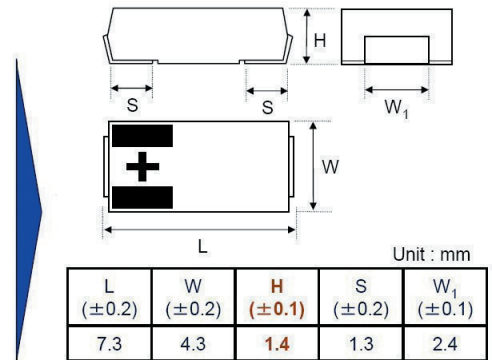

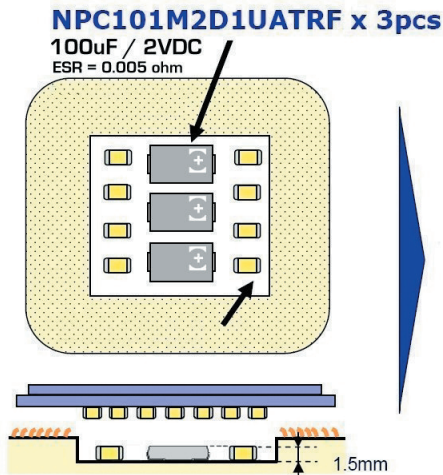

ADVANTAGES:

- Low Profile for CPU Socket "T" LGA775 (see image below)
- High Stability with Long Life (No capacitance loss due to voltage nor time)
- High Ripple Current (3Arms over +25°C - +105°C)

APPLICATIONS: (use with Intel, nVidia, VIA, SiS, ATi, etc)

- Motherboards
- Servers
- Workstations
- HD Video
