

NIC PRODUCT PROFILE

NPX Series

"X2" Safety Interference Suppression Film Capacitors

Description:

NIC NPX series of radial leaded metallized polypropylene film capacitors, multiple safety agency approved interference suppression capacitor with "X2" across-the-line (up to 310VAC) rating in a molded box construction.

The NPX Series features wide capacitance range and improved safety over ceramic capacitor styles (Self healing metallized film construction), providing low cost EMI - noise suppression solution in a precision molded case.

Characteristics:

Temperature Ranges : -40°C ~ +100°C
 310V Rating UL listing (310VAC)
 Capacitance Range 1,000pF ~ 1.0µF
 Tolerances: ±10% (K), ±20% (M)

Features / Advantages:

Metallized Polypropylene Film
 Non-Inductive & Self-Healing Construction
 Case meets UL-94V-0 Flammability
